Bandung | West Java | Indonesia | 40226

Full Stack Web Developer with 2,5 years of experience in JavaScript & Typescript, also has a background as an Instructor at Hacktiv8. Proficient in crafting impactful web applications using technologies such as Next.js, React, Vue, Express, and PostgreSQL. A fast learner who delivers work on time and is adept at managing work priorities, while also being familiar with deploying applications through GitHub Actions and containerization with Docker. Ready to contribute effectively in a collaborative team environment.

Professional Experience

PT HACKTIVATE TEKNOLOGI INDONESIA (HACKTIV8) - South Jakarta

June 2024 - October 2024

Education Technology & Bootcamp Company

FRONT END REACT CURRICULUM DEVELOPER & INSTRUCTOR

- Successfully handling the FERN batch program in a span of 5 months and maintaining 88% graduate rate with average grade of 90/100 by generating monthly reports, developing the curriculum, and ensuring students received high-quality courses in a shorter time frame compared to the FSJS program.
- Developed the Front End Curriculum in just 2 weeks, incorporating cutting-edge technologies such as Next.js, React, React Native, Tanstack Query, Tanstack Table, React Hook Form, Zod, and Tailwind. Achieved a 100% satisfaction rating on the curriculum as reflected in student feedback every month.
- Maintaining 100% satisfaction rating on lecture from student feedback every month by delivering high quality lecture every week and delivering great assistance to the student.

PT MULTIPILAR BALANTIKA - South Jakarta

March 2024 - August 2024

Information Technology / Digital Platform Company

FRONT END DEVELOPER (PARTTIME)

- Designed and developed responsive and interactive user interfaces for lelangkoki.com using Next.js, TypeScript, and TailwindCSS + shadcn/ui, delivering an average of 10 - 15 features per sprint schedule.
- Collaborated closely with backend developers and designers to ensure seamless integration and implementation of UI/UX designs, resulting in the successful launch of total 50 features in 1 month from the start of the project
- Utilized version control systems using GitLab for efficient code management and collaboration with other development teams, averaging 10-20 commits per day, which facilitated streamlined workflows and improved team collaboration.

PT HACKTIVATE TEKNOLOGI INDONESIA (HACKTIV8) - South Jakarta

June 2022 - June 2024

Education Technology & Bootcamp Company

FULL STACK JAVASCRIPT INSTRUCTOR

- Achieved a 95% satisfaction rating on average each month by teaching diverse Web Development topics, including REST APIs, GraphQL, Express, PostgreSQL, MongoDB, React, Next.js, Vue, State Management, Test-Driven Development (TDD), Containerization and Deployment.
- Contributed as a Fullstack Engineer in the FSJS Tools team by automating tasks to streamline website development and enhance efficiency, including building a Discord bot that streamlined 90% of information flow via cron jobs, effectively eliminating manual copy-paste work.
- Teamed up with other instructors to create a market-aligned curriculum that ensured students had relevant, up-to-date industry knowledge, resulting in a 100% satisfaction rating on curriculum from student feedback.

Academy

PADJADJARAN UNIVERSITY - Bandung
Bachelor of Economics (S. E.)

August 2015 - October 2019

GPA 3.53 / 4.00
